Theme: Education

Problem Statement:

Students after passing 10th or 2nd puc have difficulty in choosing the course and college they want to enroll and pursue their career .

Brief Description of the statement:

We create a website that acts like a online career guiding counsellor which helps them to make a right choice for them and their future

Detailed description:

Our website lists all the colleges of a city , courses they have to offer , CET/NEET/COMEDk/JEE ranks cut off details , admission details which contains about the fees structures, passing percentage , name of the companies that come every year for the campus selection , list of different sports coaching and facilities offered by the college , list of cultural programs organised every year so that the students can see these details and discuss them with their parents and come to one decision before they take admit to the college of their choice with ease.

Merits:

- 1)All the details of a college required are available under single website
- 2)Saves time and resources
- 3)Helps the students clear all their doubts and queries
